

1st Grade Business Project

Your challenge is to create a business that sells goods OR services. These items can be real items that the student creates and sells OR pretend goods/services (examples and grading rubric are attached).

Project Description:

This project has 3 parts which are expected to be turned in on time. Points will be taken off for late or incomplete projects.

Part 1: Brainstorm ideas and create a Business Plan (Due: 2/22/16)

Part 2: Use a trifold-poster board to create a Display Board for your business. (Due: 3/4/16)

Part 3: Set up your Display Board at the 1st Grade Business Fair and "sell" items to your classmates (Business Fair Date: 3/4/16)

Project Checklist:

Your business display board should have the following

- _____Your name
- _____Your business name
- _____ List of at least 3 Goods or Services
- _____ Pricing information- all prices should be in whole dollar increments (example \$1, \$3, \$20, etc). Keep in mind that students will each be given \$100 (play money) to spend at the fair so your prices should be between \$1-\$20 per good/service.

The Business Project will be used for 3 grades (Social Studies, ELA, Math) Please see attached rubric for exact grading specifics.

Be Creative and Have Fun!

-The First Grade Team

I have reviewed the project description and rubric and I am aware of all dates/deadlines for the 1st Grade Business Project.

_____ (Student Name)
_____ (Parent Signature)
_____ (Date)
